A RUSTIC & NATURAL HOME

Deciding on a decor scheme that you'll love for years to come is one of the most important design decisions you will make. Luckily for us, Mother Nature has given us one of the most beautiful and inspired palettes to fill our spaces with. For the Welkin model home at Empire Crosby in West Midtown, designers Lindsey Wooten and Liz Combs took their cues from nature with soft colors and rustic textures that impart a soothing appeal. Discover the must-have furniture and accessories needed to recreate this style in your own home.
