

GET THE LOOK
TRANSITIONAL YET CLASSIC

Now more than ever, the kitchen has become the heart of our homes. No matter whether you're whipping up a weeknight dinner with the family or hosting friends for the evening, having a kitchen that's comfortable and inviting will inspire loved ones to linger around the table a little longer. In the open-concept kitchen at our Harleigh model at Harlow, designer Courtney Rogers offset warm wood cabinets and barstools with hits of polish in the countertops, backsplash and brushed brass pendant lights. Discover the must-have furniture and accessories needed to recreate this warm and comfortable look in your own home.
